SAFETY DATA SHEET

1. Identification

Product identifier
Feline Rhinotracheitis-Calici-Panleukopenia Vaccine, Modified Live Virus

Other means of identification

Synonyms
Felocell® 3 * FelineGuard® 3 Vaccine * Felocell 3 * Felineguard 3 vaccine * Felocell® CVR *
Versifel CVR

Recommended use of the chemical and restrictions on use

Recommended use
Veterinary vaccine

Restrictions on use
Not for human use

Details of manufacturer or importer

Company Name (AU)
Zoetis Australia Pty Ltd
ABN 94 156 476 425
Level 6, 5 Rider Boulevard
Rhodes NSW 2138 AUSTRALIA

Tel
1800 814 883

Fax
(02) 8876 0444

Email
productsupport.au@zoetis.com

Emergency Phone
1800 814 883 (all hours)

Police and Fire Brigade
Dial 000

If ineffective
Dial Poisons Information Centre (13 1126 from anywhere in Australia)

2. Hazard(s) identification

Classification of the hazardous chemical

Physical hazards
Not classified.

Health hazards
Not classified.

Environmental hazards
Not classified.

Label elements, including precautionary statements

Hazard symbol(s)
None.

Signal word
None.

Hazard statement(s)
The mixture does not meet the criteria for classification.

Precautionary statement(s)

Prevention
Observe good industrial hygiene practices.

Response
Wash hands after handling.

Storage
Store away from incompatible materials.

Disposal
Dispose of waste and residues in accordance with local authority requirements.

Other hazards which do not result in classification
None known.

Supplemental information
Direct contact with eyes may cause temporary irritation. In the event of accidental injection, an allergic reaction may occur.

3. Composition/information on ingredients

Mixture

Identity of chemical ingredients
Feline Calicivirus
Feline Panleukopenia
Feline Viral Rhinotracheitis

CAS number and other unique identifiers
Not assigned
Not assigned
Not assigned

Concentration of ingredients (%)
*
*
*
## Composition comments

* Non-hazardous Ingredients

### 4. First-aid measures

#### Description of necessary first aid measures

**Inhalation**
Move to fresh air. Call a physician if symptoms develop or persist.

**Skin contact**
Wash off with soap and water. Get medical attention if irritation develops and persists.

**Eye contact**
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. Remove contact lenses, if present and easy to do.

**Ingestion**
Rinse mouth. Call a physician or poison control centre immediately. Only induce vomiting at the instruction of medical personnel. Never give anything by mouth to an unconscious person.

#### Personal protection for first-aid responders

Direct contact with eyes may cause temporary irritation. Exposure may cause temporary irritation, redness, or discomfort. In the event of accidental injection, an allergic reaction may occur. Signs and symptoms might include skin rash, itching, redness or swelling. Respiratory reactions may be characterized by rhinitis, sneezing, scratchy throat, oral mucosal edema, laryngeal mucosal edema, coughing, shortness of breath, wheezing, and chest pain. Asthma like reactions occur with acute exposures in sensitized patients.

#### Symptoms caused by exposure

Treat symptomatically.

#### Medical attention and special treatment

5. Fire-fighting measures

#### Extinguishing media

- **Suitable extinguishing media**
  Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

- **Unsuitable extinguishing media**
  Do not use water jet as an extinguisher, as this will spread the fire.

#### Specific hazards arising from the chemical

During fire, gases hazardous to health may be formed.

#### Special protective equipment and precautions for fire fighters

- **Self-contained breathing apparatus and full protective clothing**
  Must be worn in case of fire.

#### Fire fighting equipment/instructions

- **Use water spray to cool unopened containers.**

#### Hazchem code

- **None.**

#### General fire hazards

- **No unusual fire or explosion hazards noted.**

#### Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials.

6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

- **For non-emergency personnel**
  Keep unnecessary personnel away.

- **For emergency responders**
  Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.

#### Environmental precautions

- **Avoid discharge into drains, water courses or onto the ground.**

#### Methods and materials for containment and cleaning up

- **Large Spills:**
  Stop the flow of material, if this is without risk. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

- **Small Spills:**
  Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

  Never return spills to original containers for re-use.
7. Handling and storage

**Precautions for safe handling**
Avoid breathing dust, vapor or mist. Avoid contact with eyes, skin, and clothing. Avoid accidental injection. Wash thoroughly after handling. When using, do not eat, drink or smoke. Wear personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**
Store away from incompatible materials (see Section 10 of the SDS). Store away from direct sunlight. Protect from heat and light. @ 2 - 8°C (36 - 46 °F). Do not freeze. Keep container tightly closed. Keep away from heat, sparks and open flame.

8. Exposure controls and personal protection

**Control parameters**
Follow standard monitoring procedures.

**Occupational exposure limits**
No exposure limits noted for ingredient(s).

**Biological limit values**
No biological exposure limits noted for the ingredient(s).

**Exposure guidelines**
No exposure standards allocated.

**Control banding approach**
Gentamicin: Zoetis OEB 2 (control exposure to the range of 100ug/m3 to < 1000ug/m3)

**Appropriate engineering controls**
Keep air contamination levels below the exposure limits or within the OEB range listed above in this section. General ventilation normally adequate.

**Individual protection measures, for example personal protective equipment (PPE)**

- **Eye/face protection**
  If contact is likely, safety glasses with side shields are recommended.

- **Skin protection**
  - **Hand protection**
    Wear impervious gloves if skin contact is possible.
  - **Other**
    Wear suitable protective clothing. Use protective clothing (uniforms, lab coats, disposable coveralls, etc.) in both production and laboratory areas.

- **Respiratory protection**
  No personal respiratory protective equipment normally required. In case of insufficient ventilation, wear suitable respiratory equipment. If airborne exposures are within or exceed the Occupational Exposure Band (OEB) range, wear an appropriate respirator with a protection factor sufficient to control exposures to the bottom of the OEB range.

- **Thermal hazards**
  Not applicable.

**Hygiene measures**
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

**Appearance**
Freeze-dried pellet plus sterile diluent

- **Physical state**
  Solid, Liquid.

- **Form**
  Solid. Liquid.

- **Colour**
  Not available.

- **Odour**
  Not available.

- **Odour threshold**
  Not available.

- **pH**
  6 - 8

- **Melting point/freezing point**
  Not available.

- **Initial boiling point and boiling range**
  > 100 °C (> 212 °F)

- **Flash point**
  Not available.

- **Evaporation rate**
  Not available.

- **Flammability (solid, gas)**
  Not available.

- **Upper/lower flammability or explosive limits**
  - **Flammability limit - lower (%)**
    Not available.
  - **Flammability limit - upper (%)**
    Not available.
  - **Explosive limit - lower (%)**
    Not available.
  - **Explosive limit – upper (%)**
    Not available.
Vapour pressure Not available.
Vapour density Not available.
Relative density Not available.
Solubility(ies)
  Solubility (water) 100 %
Partition coefficient (n-octanol/water) Not available.
Auto-ignition temperature Not available.
Decomposition temperature Not available.
Viscosity Not available.

Other physical and chemical parameters
  Explosive properties Not explosive.
  Oxidising properties Not oxidising.
  Specific gravity 0.8 - 1.2

10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability Material is stable under normal conditions.
Possibility of hazardous reactions No dangerous reaction known under conditions of normal use.
Conditions to avoid Contact with incompatible materials. Sunlight. High temperatures. Store at 2-8°C. Prolonged exposure to higher temperatures may adversely affect potency. Do not freeze.
Incompatible materials Strong oxidising agents. This material can be denatured or inactivated by a variety of organic solvents, salts or heavy metals.
Hazardous decomposition products No hazardous decomposition products are known.

11. Toxicological information

Information on possible routes of exposure
  Inhalation No adverse effects due to inhalation are expected.
  Skin contact Prolonged skin contact may cause temporary irritation.
  Eye contact Direct contact with eyes may cause temporary irritation.
  Gentamicin Species: Rabbit
  Severity: Non-irritating

Ingestion Expected to be a low ingestion hazard.
Symptoms related to exposure Direct contact with eyes may cause temporary irritation. Exposure may cause temporary irritation, redness, or discomfort. In the event of accidental injection, an allergic reaction may occur. Signs and symptoms might include skin rash, itching, redness or swelling. Respiratory reactions may be characterized by rhinitis, sneezing, scratchy throat, oral mucosal edema, laryngeal mucosal edema, coughing, shortness of breath, wheezing, and chest pain. Asthma like reactions occur with acute exposures in sensitized patients.

Acute toxicity Expected to be a low hazard for usual industrial or commercial handling by trained personnel.

**Respiratory or skin sensitisation**

- **Respiratory sensitisation**: Not a respiratory sensitizer.
- **Skin sensitisation**: This product is not expected to cause skin sensitisation.
- **Germ cell mutagenicity**: No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
- **Carcinogenicity**: Due to partial or complete lack of data the classification is not possible.
- **Reproductive toxicity**: This product is not expected to cause reproductive or developmental effects.

| Developmental effects Gentamicin | 75 mg/kg/day Embryo / Fetal Development, Developmental toxicity Result: LOAEL Species: Rat Organ: Intramuscular |

**Specific target organ toxicity - single exposure**: Not classified.

**Specific target organ toxicity - repeated exposure**: Not classified.

- **Aspiration hazard**: Not an aspiration hazard.
- **Other information**: Allergic reactions are possible. The antigens included in this product are non-infectious. All have been prepared from modified or inactivated preparations of microorganisms.

**12. Ecological information**

- **Ecotoxicity**: The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Avoid release to the environment.

- **Persistence and degradability**: No data is available on the degradability of this product.

- **Bioaccumulative potential**: No data available.

- **Mobility in soil**: No data available for this product.

- **Other adverse effects**: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

**13. Disposal considerations**

- **Disposal methods**: Avoid release to the environment. Do not discharge into drains, water courses or onto the ground. Do not contaminate ponds, waterways or ditches with chemical or used container. Considering the relevant known environmental and human health hazards of the material, review and implement appropriate technical and procedural waste water and waste disposal measures to prevent occupational exposure and environmental release. It is recommended that waste minimization be practiced. The best available technology should be utilized to prevent environmental releases. This may include destructive techniques for waste and wastewater. Dispose of contents/container in accordance with local/regional/national/international regulations.

- **Residual waste**: Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

- **Contaminated packaging**: Since emptied containers may retain product residue, follow label warnings even after container is emptied.
14. Transport information

ADG
Not regulated as dangerous goods.

RID
Not regulated as dangerous goods.

IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.

Transport in bulk according to
Annex II of MARPOL 73/78 and
the IBC Code
Not established.

15. Regulatory information

Safety, health and environmental regulations

National regulations
This Safety Data Sheet was prepared in accordance with Australia Model Code of Practice for the preparation of Safety Data Sheets for Hazardous Chemicals.
