SAFETY DATA SHEET

1. Identification

**Product identifier**
SERELISA BHV-1 GB AB MONO BLOCKING

**Other means of identification**
None.

**Recommended use of the chemical and restrictions on use**
- **Recommended use**: Veterinary product used as diagnostic aid
- **Restrictions on use**: Not for human use

**Details of manufacturer or importer**

**Manufacturer**
- **Company Name (AU)**: Zoetis Australia Pty Ltd
- **ABN**: 94 156 476 425
- **Level 6, 5 Rider Boulevard Rhodes NSW 2138 AUSTRALIA**
- **Tel**: 1800 814 883
- **Fax**: (02) 8876 0444
- **Email**: australia.animalhealth@zoetis.com
- **Emergency Phone**: 1800 814 883 (all hours)
- **Police and Fire Brigade**: Dial 000
- **If ineffective**: Dial Poisons Information Centre (13 1126 from anywhere in Australia)

2. Hazard(s) identification

**Classification of the hazardous chemical**

**Physical hazards**: Not classified.

**Health hazards**
- Skin corrosion/irritation: Category 1
- Serious eye damage/eye irritation: Category 1

**Environmental hazards**: Not classified.

**Label elements, including precautionary statements**

**Hazard symbol(s)**
- Corrosion

**Signal word**: Danger

**Hazard Statement(s)**
Causes severe skin burns and eye damage.

**Precautionary Statement(s)**

**Prevention**
- Do not breathe mist or vapour. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

**Response**
- IF SWALLOWED: rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE or doctor/physician. Wash contaminated clothing before reuse.

**Storage**
- Store locked up.

**Disposal**
- Dispose of contents/container in accordance with local/regional/national/international regulations.

**Other hazards which do not result in classification**: None known.

**Supplemental information**
Exposure to strong inorganic mists containing sulfuric acid may cause cancer by inhalation. See section 11 for further explanation. Handle as potentially infectious.

Composition comments

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Description of necessary first aid measures

Inhalation
Remove victim to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Call a physician or poison control centre immediately.

Skin contact
Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a physician or poison control centre immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control centre immediately.

Ingestion
Call a physician or poison control centre immediately. Rinse mouth. Do NOT induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

Personal protection for first-aid responders
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

Symptoms caused by exposure
Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Medical attention and special treatment
Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.

5. Fire-fighting measures

Extinguishing media
- **Suitable extinguishing media**: Foam. Powder. Carbon dioxide (CO2).
- **Unsuitable extinguishing media**: Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for fire fighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions
Move containers from fire area if you can do so without risk.

Hazchem Code
None.

General fire hazards
Fire may produce toxic or corrosive gases.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
Do not breathe mist or vapour. Keep unnecessary personnel away. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8.
For emergency responders

Handle as potentially infectious. Do not breathe mist or vapour. Wear appropriate protective equipment and clothing during clean-up. Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Ventilate the contaminated area. ELIMINATE all ignition sources (no smoking, flames, sparks or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Environmental precautions

Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

Methods and materials for containment and cleaning up

Ensure adequate ventilation. Avoid inhalation of vapours or mists. ELIMINATE all ignition sources (no smoking, flames, sparks or flames in immediate area). Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Collect spill with an inert, non-combustible absorbent material and transfer to labeled container for disposal. Clean contaminated surface thoroughly. Prevent release to the environment.

Small Spills: Wipe up with a damp cloth and place in container for disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

7. Handling and storage

Precautions for safe handling

Handle as potentially infectious. Wear appropriate personal protective equipment. Provide adequate ventilation. Do not breathe mist or vapour. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Wash thoroughly after handling. Avoid release to the environment. Handle and open container with care. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in cool place. 2 - 8°C (36 - 46°F). Do not freeze. Store locked up. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls and personal protection

Control parameters

Follow standard monitoring procedures.

Occupational exposure limits

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure guidelines

Australia OELs: Skin designation
Thimerosal (CAS 54-64-8) Can be absorbed through the skin.

US ACGIH Threshold Limit Values: Skin designation
Thimerosal (CAS 54-64-8) Can be absorbed through the skin.

Appropriate engineering controls
Ensure adequate ventilation, especially in confined areas. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. General ventilation normally adequate. Eye wash facilities and emergency shower must be available when handling this product.

Individual protection measures, for example personal protective equipment (PPE)

Eye/face protection
Wear safety glasses with side shields (or goggles) and a face shield.

Skin protection
Hand protection
Wear appropriate chemical resistant gloves.

Other
Wear appropriate chemical resistant clothing.

Respiratory protection
In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards
not applicable.

Hygiene measures
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

10. Stability and reactivity

Reactivity

Reacts violently with strong alkaline substances. This product may react with reducing agents.

Chemical stability

Material is stable under normal conditions.

Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid

Contact with incompatible materials. Do not mix with other chemicals.

Incompatible materials

Bases. Reducing Agents.

Hazardous decomposition products

Irritating and/or toxic fumes and gases may be emitted upon the products decomposition. Sulphur compounds. metallic mercury.

11. Toxicological information

Information on possible routes of exposure

Inhalation

May cause irritation to the respiratory system. Prolonged inhalation may be harmful.

Skin contact

Causes severe skin burns. Severity: Severe

Eye contact

Causes serious eye damage. Severity: Severe

Thimerosal

Species: Rabbit Severity: Mild

Ingestion

Causes digestive tract burns.

Symptoms related to exposure

Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Serious eye damage/irritation Causes serious eye damage.

Eye contact
Sulfuric Acid Stop Solution Severity: Severe
Thimerosal Species: Rabbit Severity: Mild

Respiratory or skin sensitisation
Respiratory sensitisation Not a respiratory sensitizer.
Skin sensitisation This product is not expected to cause skin sensitisation.

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity Based on available data, the classification criteria are not met. The International Agency for Research on Cancer (IARC) and the United States National Toxicology Program (NTP) have classified ‘occupational exposure to strong inorganic acid mists containing sulfuric acid’ as a known human carcinogen. This classification applies only to sulfuric acid when generated as a mist. This classification is debated within the scientific community and there is disagreement as to whether or not a cause and effect relationship between cancer and ‘occupational exposure to strong inorganic acid mists containing sulfuric acid’ exists.

ACGIH Carcinogens
Sulfuric Acid Stop Solution (CAS 7664-93-9) A2 Suspected human carcinogen.
IARC Monographs. Overall Evaluation of Carcinogenicity Sulfuric Acid Stop Solution (CAS 7664-93-9) 1 Carcinogenic to humans.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure Not classified.
Specific target organ toxicity - repeated exposure Not classified.

Aspiration hazard Not an aspiration hazard.
Chronic effects Prolonged inhalation may be harmful. Prolonged exposure may cause chronic effects.

12. Ecological information

Ecotoxicity Because of the low pH of this product, it would be expected to produce significant ecotoxicity upon exposure to aquatic organisms and aquatic systems. Avoid release to the environment.

Persistence and degradability No data is available on the degradability of this product.
Bioaccumulative potential No data available.
Mobility in soil This product is miscible in water.
Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations
Disposal methods Avoid release to the environment. Incinerate the material under controlled conditions in an approved incinerator. If no on-site incinerator is available, dispose of material in a licensed commercial chemical incinerator. Do not allow this material to drain into sewers/water supplies. Dispose of contents/container in accordance with local/regional/national/international regulations.
Residual waste: Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging: Since emptied containers may retain product residue, follow label warnings even after container is emptied. Incinerate the material under controlled conditions in an approved incinerator. If no on-site incinerator is available, dispose of material in a licensed commercial chemical incinerator.

14. Transport information

**ADG**
- **UN number**: 2796
- **UN proper shipping name**: SULPHURIC ACID SOLUTION
- **Transport hazard class(es)**
  - **Class**: 8
  - **Subsidiary risk**: -
  - **Packing group**: II
- **Environmental hazards**: Not available.
- **Hazchem Code**: 2R
- **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling. Also refer to the General information statements below in this section.

**RID**
- **UN number**: 2796
- **UN proper shipping name**: SULPHURIC ACID SOLUTION
- **Transport hazard class(es)**
  - **Class**: 8
  - **Subsidiary risk**: -
  - **Label(s)**: 8
  - **Packing group**: II
  - **Environmental hazards**: No.
- **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling. Also refer to the General information statements below in this section.

**IATA**
- **UN number**: 2796
- **UN proper shipping name**: Sulfuric acid solution
- **Transport hazard class(es)**
  - **Class**: 8
  - **Subsidiary risk**: -
  - **Packing group**: II
- **Environmental hazards**: No.
- **ERG Code**: 8L
- **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling. Also refer to the General information statements below in this section.

**Other information**
- **Passenger and cargo aircraft**: Allowed with restrictions.
- **Cargo aircraft only**: Allowed with restrictions.

**IMDG**
- **UN number**: 2796
- **UN proper shipping name**: SULPHURIC ACID SOLUTION
- **Transport hazard class(es)**
  - **Class**: 8
  - **Subsidiary risk**: -
  - **Packing group**: II
  - **Environmental hazards**: No.
  - **Marine pollutants**: F-A, S-B
- **Special precautions for user**: Read safety instructions, SDS and emergency procedures before handling. Also refer to the General information statements below in this section.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**: Not established.
This material, when packaged in inner containers of 30 milliliters or less, can qualify for the Expected Quantity provisions of the transport regulations. Refer to the ICAO/IATA, IMDG, ADR, and US DOT regulations for details.
